

Quality Policy

mySHEQ.com Simplifies Safety Management by assisting organisations to Declutter and Centralise Dispersed Management Systems.

We provide Insight into the day-to-day running of Integrated Management Systems, by furnishing our customers with a Cloud based Software Service that has been Innovated to Streamline and Enhance not only their Health and Safety operations, but their entire enterprise.

mySHEQ.com protects our customers most valuable assets by Lowering Risks and Decreasing Incident & Accident Losses whilst gaining Live Insights into their Health, Safety, Environmental, Quality and Risk.

Our Technical expertise includes consultation, development, integration, customization, and support of SHEQ Systems.

To ensure the best quality of the above scope, mySHEQ.com will:

- Establish strategic Objectives and Targets which are monitored periodically for progress.
- Be committed to their customer service and to meet all requirements, where possible, expected from their clients.
- Ensure continuous improvement on our Quality Management System.
- Identify Risks and Opportunities in order to mitigate any potential risk to the Quality Management System.

NEIL VAN DER BIJL – Managing Director
